Sir:

Responsive to the Office Action of May 30, 2002, the following amendments and remarks are submitted in connection with the above-identified application.

IN THE CLAIMS:

Please amend claims 1 and 20 as follows. Attached hereto is a marked-up copy of the claims in amended form.

1. (Four Times Amended) A connector for a module having a semiconductor chip mounted on a rectangular board and a conductive pad on a front side of the board, the connector connecting the module to a printed circuit board in a position wherein a plane of the board is substantially parallel to the printed circuit board, said connector comprising:
